TO WHOM SO EVER IT MAY CONCERN

We are very pleased to issue this testimonial to Vimson India Engineers, Sector 10, plot no. 3A/2, PCNTDA, Pradhikaran, Bhosari. They have provided us a Vertical blending equipment for our Diabetic Flour in 2011 .The vertical blender provided by Mr Jambhale has solved our long pending technical issues in processing our Diabetic Flour. As compared to the earlier blenders we were using this blender consumes much lesser power as well as the process time has also drastically gone down. The blending quality of this equipment is very superior. Though we have been associated with Mr Jambhale for a short time yet we found him to be a hardcore professional who does not negotiate in quality. We would be happy to do business with him in the future as well. We wish him all the very best and highly recommend him.
